"SOCIABILITY" RUN A GREAT SUCCESS

MARYVILLE CITIZENS "RESTING UP" AFTER TWO-DY TOUR

PUBLICITY FOR COUNTY

Jeff City Comments on Novel "Water Wagon" Feature of Trip; Favorable Comment in Towns Along Route.

Members of the Maryville Chamber of Commerce and other citizens who took part in the two-day "sociability" run yesterday and Wednesday, are resting up today after the big trip.

That the affair was one great success is the general opinion of all, and word coming to this city from the towns were the stops were made, indicate that the stunt met with hearty approval throughout the county. The trip gave the citizens of the county and towns a good illustration of the spirit of the Chamber of Commerce and the things which they stand for in this community.

Outside of the slight mishap near Gaynor City yesterday afternoon when the wheels of the big water wagon became fastened in the boards of a bridge, the trip was entirely free from trouble. The dust proved a some what disagreeable factor the first day, but on the second lap, the tourists were prepared, and with suitable clothes to withstand the grime, they disregarded the dirt and lost themselves in the novelty and sport of the tour.

After eating dinner at Conception Junction yesterday afternoon, the tourists went to Old Conception where they visited the Monastery. The next stop was at Guilford where the visitors were given one of the most enthusiastic welcomes of the trip. Practically the entire town turned out to meet the travelers.

Leaving Guilford the parade went to Barnard where they were greeted with handshakes and expressions of good will, and the final stop was made at Arkoe from which place the procession returned to Maryville.

The notoriety which the trip gained throughout the state is shown by a newspaper clipping received at the Chamber of Commerce headquarters from Jefferson City. According to the article, a similar "run" was put on by the commercial organization there, but the idea of a "water wagon" carrying lemonade was an absent feature, and attention is called in the article to the novel stunt originated in Maryville.

MARYVILLE GETS SOME OF HER OWN "SOCIABILITY"

With Flowing Lemonade Cups Crowds Drink to Health of Chamber of Commerce Last Night.

All the "sociability" of the big tour staged by the Chamber of Commerce was not spread through the Nodaway towns on the itinery of the trip—Maryville herself got some of it last night.

After the tour had been completed, the "water wagon" still contained a goodly quantity of the ice cold lemonade and the powers in charge issued an edict that it should be placed on Main street in easy access of those who wished to imbibe of the cooling fluid. And imbibe they did. Up until a late hour the crowds who had congregated to hear the band concert gathered about the wagon and drank flowing cups of lemonade drank to the health of the Chamber of Commerce and "sociability."

"MRS. TEMPLE'S TELEGRAM" HOME TALENT PLAY JULY 31

Maryville Dramatic Stars to Appear in Comedy at Empire; Clarence E. Cook, Director.

"Mrs. Temple's Telegram," featuring Clarence Edward Cook and Miss Ruth Bookman in the title roles, is the name of an English farce comedy in three acts to be produced at the Empire theatre July 31, by the "Pickeltonian Dramatic Club," an aggregation of Maryville younger footlight stars.

The comedy to be presented is one well adapted to production by amateurs and is guaranteed to keep the audience in an uproar. The plot deals with the troubles of a young married man who very foolishly attempts to explain a "night out" by telling the truth. The lies he then resorts to after having the true explanation rejected by his wife and the resulting complications form the basis of an excruciatingly funny story.

Mr. Cook, who is also directing the production is a recent graduate of the American Academy of Dramatic Arts, and is making his first professional appearance after an unusually successful amateur career.

The complete cast is as follows:

Mrs. Jack Temple	Ruth Bookman
Mrs. Frank Fuller	Lucile Cummins
Mrs. Brown	Maedline Strawn
Frank Fuller	Chilton Robinson
Captain Sharp	Lee Maier
John Brown	Creston Maul
Jack Temple	Clarence Cook
Wigson	Wilbur Allen

Back to Old Time.

Blanchard has returned to "old time," the inconvenience of trying to reconcile "old time" and "new time" in a community mostly agricultural, having caused the merchants of the town to sign an agreement to turn their clocks back to where the sun intended they should be. As the merchants of the town decided, so the other people are doing, churches and all following in the wake of the business element. People catching trains will have to look out they do not get left, for the trains will come whistling in an hour ahead of the clock.

Leave for New Home.

Mr. and Mrs. Perry H. White of Burlington Junction, will leave tonight for Galva, Ill., to make their future home.

PLAN BIG FROLIC AT S.T.C. TUESDAY

FACULTY AND CO-EDS CLOSING SOCIAL EVENT OF SCHOOL YEAR

INDIAN SONGS FEATURED

Miss Zenor's Music Classes Will Present Indian Specialty—Eats, Games, and College Songs Will Follow.

The faculty and students of the State Teachers College will enjoy a big frolic at the college next Tuesday evening. The exact hour for the beginning of the exercises has not been definitely set. The affair this year takes the place of the usual play day stunts of past years. It is the closing social event of the summer term and is one of the biggest occasions of its kind during the entire college year.

The particular feature of this year's event will be a musical spectacle, arranged and directed by Miss Helen Zenor of the Department of Music. Miss Zenor will present an Indian specialty, including native songs and dances, sung and danced by various members of her music classes. The first number of this presentation will be "The Awakening at Dawn"—Chorus. Following this comes the "Sunrise Call"—Miss Lawson and chorus. "Coming of Montezuma"—Mr. Elmore and chorus will be the next number. Mr. Airy will sing "Lovers Wooing," a pretty Indian love song. A number of girls will appear in an exercise entitled a "Fire Drill." A chorus will sing a plaintive Indian melody, "Rain Song." Mrs. Wells and Mr. James will give a selection entitled "Rain Song—Incantations." A touching ballad "Sunset Song" will be sung by a chorus. The program will conclude with a "Ghost Dance" by Miss Richie, Miss Hawkins, and dancers.

After the musical program, which will be held in Pine grove, everyone will make their way into the main building where all kinds of "eats" will be at the mercy of the invaders.

When all have satisfied the "inner man" or more correctly "the inner woman" games and stunts of various kinds will be played. The final number of the evening's entertainment will consist of singing of college songs and college yells, as only college students know how.

SELLS HIS INTEREST IN PAPER

Walter Mendenhall of the B. J. Post Has Sold Interest to Stuart Lewis of Warrensburg.

Walter Mendenhall of the Burlington Junction Post has sold an interest in his paper to Stuart Lewis of Warrensburg, Mo. The following is what the Post had to say about it:

Stuart Lewis of Warrensburg, Mo., visited the publisher this week, and while here purchased an interest in the Post. He will come to Burlington Junction next week to take up his work with us. Mrs. Lewis will join her husband here after a short visit with her parents at Chilhowee.

Mr. Lewis has been very successful in the newspaper field. He established and published two weekly newspapers in this state, and for the past four years has been employed on the news staffs of leading metropolitan papers. He is also a capable printer and linotype operator.

In the spring of 1918 Mr. Lewis enlisted for active service overseas, giving up his position as assistant city editor of the Houston (Tex.) Post to do so. He spent almost a year at the front, returning home last month.

It was while making the return voyage that Mr. Lewis decided to enter the weekly newspaper field again, and we feel that the Post is fortunate in securing his services. The community is also fortunate in having him as one of its permanent citizens.

Mr. Lewis and the present publisher will labor together to increase the usefulness of the Post in its field, and will certainly appreciate your continued good will and co-operation.

PRISON STRIKE WELL IN HAND

PRISONERS BEING KEPT ON A BREAD AND WATER RATION

SOLDIERS WANT BATTLE

Officials Continue Plan of "Watchful Waiting"—No Difficulty Expected in Return to Work.

Leavenworth, July 25.—The prison strike here is well in hand, according to the Commandant. No combined effort has been made to get the men to work, but the prisoners are still being kept on bread and water, and when the time arrives to make a final effort to get them to work, no difficulties are anticipated.

When the prison officials will order the strike broken has not been decided. At a conference today there was some discussion of continuing the present plan of "watchful waiting" until Monday, but, the greatest sentiment was that that is too long for the sake of the prisoners' health, although it was admitted to be an excellent form of reprisal.

There are enough soldiers here to put one over every prisoner. However, there is a difference of opinion among the officials as to what the mutineers will do. Some believe they will obey willingly, others believe they will resist bitterly.

The soldiers hope they will resist, many troopers openly expressing a deep-rooted desire to get a chance to show what they think of the conscientious objectors, radicals and I. W. W., who lorded it over military authorities while the honest-to-goodness soldier was undergoing the privations of foreign service.

On the other hand there are many foreign service prisoners in the barracks—men who fought well, but had other weaknesses—and those men have the whole-hearted sympathy of soldiers and guards.

SHANTUNG AND THE LEAGUE.

From the Post-Dispatch.

Some Senators who oppose the League of Nations are so bitter in their animosity towards the President and his peace work and are so lost to a judicious sense of fitness in debating the peace treaty that they are willing to endanger peace with a friendly nation to accomplish their ends. Japan was coarsely attacked and Senator Borah even threatened her with war on account of the Shantung agreement.

Think, after the horrors of the past four years and after our sacrifices to put an end to war, of an American senator threatening a neighboring, friendly nation with war because the peace treaty recognizes that nation's claim to concessions and privileges in a Chinese province, which were taken from Germany.

We have not gone to war when worse conditions than those insisted upon by Japan were imposed upon China. We did not go to war with Germany when she seized Kiauchau and forced the grant of Shantung concessions.

Before we entered the war, Japan had driven Germany out of her Chinese stronghold and had seized all German property and concessions there. Her claims were admitted by her allies and China had agreed to the transfer of the concessions by Germany. The whole arrangement was settled before we went to war.

Of course no American likes the Shantung agreement. We do not believe in any kind of exploitation of one nation by another. We would prefer to have the treaty free from the shadow of any advantage gained thru force by one nation over another. But the thing was not of our own doing and China is better off than before. Japan has promised to return to China the territory held by Germany and merely to use certain economic privileges for a limited term of years.

Since Japan insisted upon these claims as compensation for her military efforts and sacrifices, and in accord with agreements, it was better to let them go than to break up the peace conference and wreck all plans for the abandonment of similar conditions in the future and for guarantees of peace. China gains something and mankind gains tremendous advantage by the completion of the treaty and the organization of the League of Nations, which is organized to prevent the recurrence of such things? Why do they not appoint, in which the nation gives solprove article 10 of the peace coveemn pledge to refrain from attacking the political independence and territorial integrity of any nation and to protect all nations against external aggression? This is the point of their protests.

This would be better than going to war over a Chinese province. It would be better than our attempting to right all wrongs in all parts of the right all wrongs in all parts of the world by force of our own protest or our own might.

Any old excuse seems to be good enough to supply fuel for the insensate fury of the extreme opponents of the League. The Shantung attack is about the worst. Whatever force there is in their arguments supports the League of Nations which offers peaceful and reasonable means of wiping out this remnant of the rule of greed and force and of preventing any repetition of its kind.

BISHOP SAYS WOMEN ARE LOSERS IN DIVORCE COURTS.

St. Louis, Mo., July 25.—"These are days when woman will have some voice in determining the permanency of the divorce courts and let us hope she will realize the divorce court is her enemy," declared Archbishop Glennon, of St. Louis, in a sermon here.

"There are few women who appear to profit by the divorce court, but they sacrifice moral duty to a fascinating experiment. She appears through the papers and the publicity attached thereto to obtain a certain dignity, but the rank and file leave the divorce court homeless and hopeless.

"Divorce, as a system, bears down on womanhood. Woman must be protected by making the marriage law permanent and holy. Man, who is strong, escapes, but woman, who is the weaker, and the children, are the victims."

A Very Low Estimate.

In its advertisement in the county seat papers, setting forth the advantages of Nodaway county, the Maryville Commercial Club published a list containing the number of cars of live stock shipped from each station in the county the past year. Four of the stations were estimated, Burlington Junction, being one of these, and the number of cars from here was given as fifty. This is probably less than a fourth of the real number, as one firm of stock buyers alone has shipped over 100 cars. Add the other buyers' shipments, and the private shipments to this and the total will be far in excess of that number. We hope to have the exact figures next week.—Burlington Junction Post.

CAMPAIGN TO RAISE $65,000,000 FOR GERMANS

St. Louis, July 25.—In conjunction with a nationwide campaign to raise $65,000,000 for the relief of German war sufferers, St. Louis Americans of German ancestry, through the St. Louis War Relief Bazaar Association, are planning to raise a large amount of money. No limit has been set.

Next Monday evening a meeting will be held at the Liederkranz Club, at which the members of the various committees of the organization and smaller associations of the city will be present.

A plan will be launched to collect large sums from wealthy Germans of the city and this campaign will be concluded before efforts are made to obtain smaller subscriptions.

Requests will be made for the smaller German societies of the city to handle collection of smaller sums to be turned into J. Toensfeldt of the Third National Bank, who has been chosen as treasurer of the campaign organization.

Approval of the State Deparment is said to have been obtained through Richard Bartholdt, former Missouri congressman.

The Ladies' Auxiliary of the organization, of which Mrs. Adolphus Busch is honorary president, will have a prominent part in the collection of the money.

St. Louis, July 25.—A technique of spinal stimulation and nitrous oxide and oxygen combination by which it is possible to produce childbirth with absolutely no pain has been discovered at Liberty hospital here by Dr. John H. Crenshaw.

This technique, Dr. Crenshaw says, is absolutely safe and the patient, conscious all of the time, sees all that goes on, but is oblivious to pain.

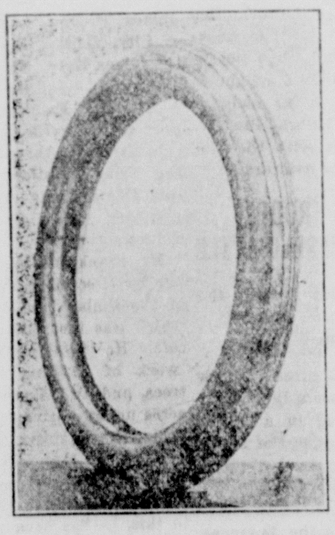
Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood.

Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh with S. S. S. during warm weather.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the root of the trouble. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Address Swift Specific Co., Dept. 53, Atlanta, Ga.



Are You Retreading or Wasting Your Tires?

When your tires are worn until the fabric shows through on the tread, you must either retread or waste such tires.

The fabric in a tire is for holding air pressure only, and when stripped of its protection of tread rubber it will wear only a few miles and in these few miles the fabric, which represents more than half the cost of the tire is ruined.

If retreaded in time, tread worn tires can be made practically as good as new—and at one-half the price of new tires.

We use the same materials in retreading and rebuilding that you get in the best new tires.

We can tell upon examination whether your tire is suitable for retreading or rebuilding.

We will not repair any tire unless it will give more in service than the cost of the repair.

WOMEN OF MIDDLE AGE

How Lydia E. Pinkham's Vegetable Compound Relieves the Ailments of Change of Life.

"During Change of Life I had hot flashes, dizzy spells and every month I was wild with misery I had a constant dull pain, and would always feel tired. I suffered in this way for five or six years and was treated by a physician and took different remedies without benefit. Lydia E. Pinkham's Vegetable Compound was recommended to me and I took it, and I believe I would never have been well if it had not been for the Vegetable Compound and Lydia E. Pinkham's Sanative Wash. I am recommending your medicine to all women ailing as I was, for I think it will carry them safely through the Change of Life, and relieve the ailments that come at that period."—Mrs. ALEXIE C. NANGLE, Galatia, Ill.

Women who suffer from nervousness, "heat flashes," backache, headaches, and "the blues," should try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and if complications exist write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience in such cases is at your service.

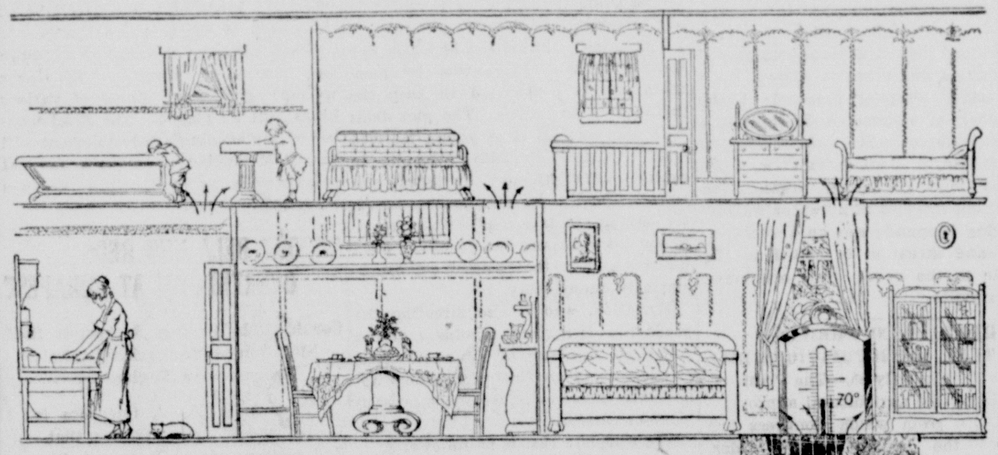
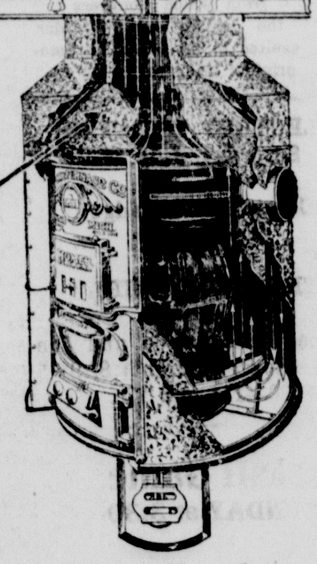
Healthful Heat from a PIPELESS FURNACE



YOUR HOME is just as comfortable as your heating system is efficient. Cold and stuffy rooms, or rooms filled with comfortable, healthful heat of the proper humidity—which?

The Homer—the original patented pipeless furnace—answers the problem—sufficient moist warm air and proper ventilation. Simple in construction and simple in operation, the Homer warms and purifies all the air in the house with the least amount of trouble.

The Homer heats so satisfactorily because it works with nature in distributing the warm air to every nook and corner. There are no dust-collecting and heat-absorbing pipes.



You can get a Thermo-Seal inner lining only on a Homer

HOMER
ORIGINAL PATENTED PIPELESS FURNACE

with the **Thermo-Seal** inner lining

Whenever there is a fire in the Homer there is a circulation of pure, warm air in the house. The Thermo-Seal inner lining sees to that. The dead air in the house, heavier than the warm air, returns to the furnace, where it is heated, sterilized and moistened. Then it goes direct to the rooms you want warm and cozy.

The Homer is the only furnace with the Thermo-Seal inner lining—the special asbestos lining protected by two heavy sheets of galvanized steel. It keeps the heat from radiating into the cold air passage. It means perfect circulation.

The Homer does all its work through one combination register. And because it is so simple it costs less to install and operate than any other type of furnace.

It takes only a few hours to set up a Homer in any house, old or new, without tearing out the walls or making a muss.

Ask for "Their Own Words"—a booklet written by Homer owners. Let them tell you what the Homer is doing for them. "Healthful Heat" explains the Homer, the Themo-Seal inner lining and the Stroke! iron in detail. There are copies of these books for you at the dealer's.

Predict Grave Situation in Germany When Terms Are Enforced

By FLOYD MacGRIFF.
I. N. S. Staff Correspondent.

London (by mail).—Now that the Germans have accepted the terms of peace, the real test as to whether those terms will be fulfilled to the letter will come not next week or next month, but at the end of two or more years' time. Then there may be, in the language of the street, "something doin'."

That is a belief and a fear that is entertained in responsible quarters, though obviously no official desires to be quoted.

The situation in brief, which is counted upon by German radicals and others to loosen the Allied shackles and destroy the peace edifice, is this: In a couple of years' time, or at the most, say five years, let the truly elected representatives of German labor rise up and say: "Recind such and such a peace term. It is against the interests of world democracy and peace. If it is not withdrawn we shall fight."

And the Allies would then be confronted with this very difficult problem: "Can we enforce such and such a term? Will the people back us up? Will they fight?"

There is every reason for believing that the common working and fighting men of all the Allied countries would refuse to enter again into another great war. The memory of the recent conflict is to still too vivid and its sorrows and losses too great. They would, no doubt, fight for their own defense, but to fight to enforce some peace term which they might but vaguely understand would be something else. The fact that unless such a term were enforced might draw heavier taxes upon Allied workingmen, owing to the German delinquency, would have little argumentative weight, especially among those soldiers who gave four years of their lifetime and earning power to the recent conflict.

This situation is one the Germans are counting on very strongly today. They are even open about proclaiming it. The Manchester Guardian sums it up thus:

"The bulk of the German socialists believe that all over the world the labor parties are enormously increasing in strength and will soon have political control. These parties will see the workmen in Germany working under different conditions from themselves and very soon the terms will be modified in all directions."

As the London Times points out, the Independent German Socialists and Communists frequently advocated the signing of the peace in the hope that the "world revolution" would come quickly.

"We must be done with the state of war, they say, and it is idle to dispute over terms dictated to us by a triumphant capitalism," says the Times. "They are no worse, the Germans say, than the terms which triumphant German capitalism would have inflicted. Sign the Peace, and let us get on with the Internationale; the united workers of the world will make short work of the Terms as soon as they have come to power!"

Clearly, heavy pressure could again be put on Germany at any time simply through the blockade. But, with insidious propaganda for "world socialism," which the Germans already are preparing to unleash, will the Allies, or even the League of Nations, be of sufficient power and influence to keep order in their own hands and at the same time make Germany "toe the mark" or tote in the marks?

Economy in Farm Buildings.

Cheapness of construction, if it affects the strength or durability, is poor economy in farm buildings. Strength and durability are essentials. There is some danger of making buildings too expensive. They should be in keeping with the value of the land and the stock and grain which they are to shelter. City bred farmers are apt to spend too much money on farm buildings. Often, a misguided wealthy man will invest a large amount in a farm building, hoping that it will be a model for his neighbors. Buildings should, like all farm investments, pay interest on the investment. There is more danger, however, that the buildings will be too cheap than too expensive. The present high cost of building materials will be responsible for that.

Missouri farmers are demanding better buildings. Due to increased prices, better care is being taken of all farm products. Live stock must have better shelter. Hay and grain must be carefully protected from the weather. Better living conditions for the family are necessary. In response to this demand for better buildings, the agricultural engineering department of the University of Missouri College of Agriculture has prepared a list of building plans which has been issued as Cicular 69. The plans listed do not cover the entire field of farm buildings, but new plans are constantly being added and the department may be able to supply just what you need.

If you can't work well in hot weather take Prickly Ash Bitters, it purifies the stomach, liver and bowels and fortifies the body to resist the depressing influence of summer heat. It is fine for working men. Price $1.25 per bottle.—Maryville Drugs Co., Special Agents.—Adv.

Paint is a necessity —not a luxury

After your house needs painting, every year you wait it will require more paint and more labor to put it in good condition. And every year you wait your house is worth less. Good-paint money is good paint insurance. And it's pretty good insurance on the value of your property, too.

DOCTORS ADVISED HIM TO TAKE IT

A. F. Roberts, Successful Cattle Dealer Gains 16 Pounds In 60 Days Taking Tanlac.

"One of the best doctors in Colorado advised me to take Tanlac, and it has not only overcome my troubles but I have gained sixteen pounds since I began taking it sixty days ago." said A. F. Roberts, who lives at Rocky Ford, Alberta, Canada, a few days ago.

Mr. Roberts is one of the largest cattle dealers in his section of the country, and before moving to Canada a short time ago, he had spent most of his life in Colorado, U. S. A.

"I can now understand why Tanlac enjoys such wide popularity both in Canada and the United States," continued Mr. Roberts, "and since it has done me so much good, I know that it is a very dependable medicine and deserves all the praise that is being given it. For the past two years I have suffered from stomach trouble, and when I commenced taking this Tanlac, it was almost impossible for me to retain anything I ate, I was very nervous and never got a good nights sleep and finally got so weak and rundown that I was hardly able to get about, I often had dizzy spells, and was bothered a great deal with constipation.

"My physician certainly knew what he was doing when he prescribed Tanlac for me, for it has done the work for me, as I am as healthly and strong now as I ever was in my life. In fact it has done much more for me than I expected it would do. I have a fine appetite and everything I eat agrees with me perfectly, and I never have the slightest sign of stomach trouble of any kind. I am no longer bothered with constipation, and never have those dizzy spells any more. I have regained all my strength, too, and that nervousness has left me, and I sleep like a log every night. In fact, I am simply enjoying perfect health again, and I give Tanlac credit for it all."

"Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, in Arkoe by Rufus R. Smith, and in Hopkins by Hopkins Drug Co."

DIGS FOR CLAMS, FINDS PEARLS, THEN BUYS HOME.

Cottonwood Falls, Kan., July 25.—It pays to dig clams, even in Kansas rivers, according to Walter Whitlock, a baker here. Business in the shop was slow, so Walter went fishing. Fishing was slow, so he took to digging clams. Result, he found a dozen pearls. These he sold for enough to buy himself a four-room house.

Prohibition Results?

Indianapolis, Ind.—A full-fledged moonshine still and a quantity of freshly-distilled "mountain dew" were confiscated by the police in a raid on the home of Edgar Sherwood. Sherwood "wasn't in" when the morals squad allied, but the officers carted away a tin condenser, a warm tube, a tub for mash, a large wooden paddle and gas connections.

Peculiar aroma arising from the home-made stagger led the neighbors to sniff the air and then to call the police.

"SOCIABILITY" RUN A GREAT SUCCESS

MARYVILLE CITIZENS "RESTING UP" AFTER TWO-DY TOUR

PUBLICITY FOR COUNTY

Jeff City Comments on Novel "Water Wagon" Feature of Trip; Favorable Comment in Towns Along Route.

Members of the Maryville Chamber of Commerce and other citizens who took part in the two-day "sociability" run yesterday and Wednesday, are resting up today after the big trip.

That the affair was one great success is the general opinion of all, and word coming to this city from the towns were the stops were made, indicate that the stunt met with hearty approval throughout the county. The trip gave the citizens of the county and towns a good illustration of the spirit of the Chamber of Commerce and the things which they stand for in this community.

Outside of the slight mishap near Gaynor City yesterday afternoon when the wheels of the big water wagon became fastened in the boards of a bridge, the trip was entirely free from trouble. The dust proved a some what disagreeable factor the first day, but on the second lap, the tourists were prepared, and with suitable clothes to withstand the grime, they disregarded the dirt and lost themselves in the novelty and sport of the tour.

After eating dinner at Conception Junction yesterday afternoon, the tourists went to Old Conception where they visited the Monastery. The next stop was at Guilford where the visitors were given one of the most enthusiastic welcomes of the trip. Practically the entire town turned out to meet the travelers.

Leaving Guilford the parade went to Barnard where they were greeted with handshakes and expressions of good will, and the final stop was made at Arkoe from which place the procession returned to Maryville.

The notoriety which the trip gained throughout the state is shown by a newspaper clipping received at the Chamber of Commerce headquarters from Jefferson City. According to the article, a similar "run" was put on by the commercial organization there, but the idea of a "water wagon" carrying lemonade was an absent feature, and attention is called in the article to the novel stunt originated in Maryville.

MARYVILLE GETS SOME OF HER OWN "SOCIABILITY"

With Flowing Lemonade Cups Crowds Drink to Health of Chamber of Commerce Last Night.

All the "sociability" of the big tour staged by the Chamber of Commerce was not spread through the Nodaway towns on the itinery of the trip—Maryville herself got some of it last night after the tour had been completed, the "water wagon" still contained a goodly quantity of the ice cold lemonade and the powers in charge issued an edict that it should be placed on Main street in easy access of those who wished to imbibe of the cooling fluid. And imbibe they did. Up until a late hour the crowds who had congregated to hear the band concert gathered about the wagon and [a]te flowing cups of lemonade drank to the health of the Chamber of Commerce and "sociability."

"MRS. TEMPLE'S TELEGRAM" HOME TALENT PLAY JULY 31

Maryville Dramatic Stars to Appear in Comedy at Empire; Clarence E. Cook, Director.

"Mrs. Temple's Telegram," featuring Clarence Edward Cook and Miss Ruth Bookman in the title roles, is the name of an English farce comedy in three acts to be produced at the Empire theatre July 31, by the "Pickeltonian Dramatic Club," an aggregation of Maryville younger footlight stars.

The comedy to be presented is one well adapted to production by amateurs and is guaranteed to keep the audience in an uproar. The plot deals with the troubles of a young married man who very foolishly attempts to explain a "night out" by telling the truth. The lies he then resorts to after having the true explanation rejected by his wife and the resulting complications form the basis of an excruciatingly funny story.

Mr. Cook, who is also directing the production is a recent graduate of the American Academy of Dramatic Arts, and is making his first professional appearance after an unusually successful amateur career.

The complete cast is as follows:

Mrs. Jack Temple	Ruth Bookman
Mrs. Frank Fuller	Lucile Cummins
Frank Fuller	Chilton Robinson
Captain Sharp	Lee Maier
John Brown	Creston Maul
Jack Temple	Clarence Cook
Wigson	Wilbur Allen
Mrs. Brown	Maedline Strawn

People catching trains will have to look out they do not get left, for the trains will come whistling in an hour ahead of the clock.

PLAN BIG FROLIC AT S.T.C. TUESDAY

FACULTY AND CO-EDS CLOSING SOCIAL EVENT OF SCHOOL YEAR

INDIAN SONGS FEATURED

Miss Zenor's Music Classes Will Present Indian Specialty—Eats, Games, and College Songs Will Follow.

The faculty and students of the State Teachers College will enjoy a big frolic at the college next Tuesday evening. The exact hour for the beginning of the exercises has not been definitely set. The affair this year takes the place of the usual play day stunts of past years. It is the closing social event of the summer term and is one of the biggest occasions of its kind during the entire college year.

The particular feature of this year's event will be a musical spectacle, arranged and directed by Miss Helen Zenor of the Department of Music. Miss Zenor will present an Indian specialty, including native songs and dances, sung and danced by various members of her music classes. The first number of this presentation will be "The Awakening at Dawn"—Chorus. Following this comes the "Sunrise Call"—Miss Lawson and chorus. "Coming of Montezuma"—Mr. Elmore and chorus will be the next number. Mr. Airy will sing "Lovers Wooing," a pretty Indian love song. A number of girls will appear in an exercise entitled a "Fire Drill." A chorus will sing a plaintive Indian melody, "Rain Song." Mrs. Wells and Mr. James will give a selection entitled "Rain Song—Incantations." A touching ballad "Sunset Song" will be sung by a chorus. The program will conclude with a "Ghost Dance" by Miss Richie, Miss Hawkins, and dancers.

After the musical program, which will be held in Pine grove, everyone will make their way into the main building where all kinds of "eats" will be at the mercy of the invaders.

When all have satisfied the "inner man" or more correctly "the inner woman" games and stunts of various kinds will be played. The final number of the evening's entertainment will consist of singing of college songs and college yells, as only college students know how.

SELLS HIS INTEREST IN PAPER

Walter Mendenhall of the B. J. Post Has Sold Interest to Stuart Lewis of Warrensburg.

Walter Mendenhall of the Burlington Junction Post has sold an interest in his paper to Stuart Lewis of Warrensburg, Mo. The following is what the Post had to say about it:

Stuart Lewis of Warrensburg, Mo., visited the publisher this week, and while here purchased an interest in the Post. He will come to Burlington Junction next week to take up his work with us. Mrs. Lewis will join her husband here after a short visit with her parents at Chilhowee.

Mr. Lewis has been very successful in the newspaper field. He established and published two weekly newspapers in this state, and for the past four years has been employed on the news staffs of leading metropolitan papers. He is also a capable printer and linotype operator.

In the spring of 1918 Mr. Lewis enlisted for active service overseas, giving up his position as assistant city editor of the Houston (Tex.) Post to do so. He spent almost a year at the front, returning home last month.

It was while making the return voyage that Mr. Lewis decided to enter the weekly newspaper field again, and we feel that the Post is fortunate in securing his services. The community is also fortunate in having him as one of its permanent citizens.

Mr. Lewis and the present publisher will labor together to increase the usefulness of the Post in its field, and will certainly appreciate your continued good will and co-operation.

PRISON STRIKE WELL IN HAND

PRISONERS BEING KEPT ON A BREAD AND WATER RATION

SOLDIERS WANT BATTLE

Officials Continue Plan of "Watchful Waiting"—No Difficulty Expected in Return to Work.

Leavenworth, July 25.—The prison strike here is well in hand, according to the Commandant. No combined effort has been made to get the men to work, but the prisoners are still being kept on bread and water, and when the time arrives to make a final effort to get them to work, no difficulties are anticipated.

When the prison officials will order the strike broken has not been decided. At a conference today there was some discussion of continuing the present plan of "watchful waiting" until Monday, but, the greatest sentiment was that that is too long for the sake of the prisoners' health, although it was admitted to be an excellent form of reprisal.

There are enough soldiers here to put one over every prisoner. However, there is a difference of opinion among the officials as to what the mutineers will do. Some believe they will obey willingly, others believe they will resist bitterly.

The soldiers hope they will resist, many troopers openly expressing a deep-rooted desire to get a chance to show what they think of the conscientious objectors, radicals and I. W. W., who lorded it over military authorities while the honest-to-goodness soldier was undergoing the privations of foreign service.

On the other hand there are many foreign service prisoners in the barracks—men who fought well, but had other weaknesses—and those men have the whole-hearted sympathy of soldiers and guards.

MEMBER MISSOURI PRESS ASSOCIATION

SHANTUNG AND THE LEAGUE.

From the Post-Dispatch.

Some Senators who oppose the League of Nations are so bitter in their animosity towards the President and his peace work and are so lost to a judicious sense of fitness in debating the peace treaty that they are willing to endanger peace with a friendly nation to accomplish their ends. Japan was coarsely attacked and Senator Borah even threatened her with war on account of the Shantung agreement.

Think, after the horrors of the past four years and after our sacrifices to put an end to war, of an American senator threatening a neighboring, friendly nation with war because the peace treaty recognizes that nation's claim to concessions and privileges in a Chinese province, which were taken from Germany.

We have not gone to war when worse conditions than those insisted upon by Japan were imposed upon China. We did not go to war with Germany when she seized Kiauchau and forced the grant of Shantung concessions.

Before we entered the war, Japan had driven Germany out of her Chinese stronghold and had seized all German property and concessions there. Her claims were admitted by her allies and China had agreed to the transfer of the concessions by Germany. The whole arrangement was settled before we went to war.

Of course no American likes the Shantung agreement. We do not believe in any kind of exploitation of one nation by another. We would prefer to have the treaty free from the shadow of any advantage gained thru force by one nation over another. But the thing was not of our own doing and China is better off than before. Japan has promised to return to China the territory held by Germany and merely to use certain economic privileges for a limited term of years.

Since Japan insisted upon these claims as compensation for her military efforts and sacrifices, and in accord with agreements, it was better to let them go than to break up the peace conference and wreck all plans for the abandonment of similar conditions in the future and for guarantees of peace. China gains something and mankind gains tremendous advantage by the completion of the treaty and the organization of the League of Nations, which is a guarantee that no other nations will ever again attempt the conquest or exploitation of another.

If Senator Borah and his associates are so bitterly opposed to the Shantung affair, why do they not accept the League of Nations, which is organized to prove article 10 of the peace covenant pledge to refrain from attacking the political independence and territorial integrity of any nation and to protect all nations against external aggression? This is the point of their protests.

This would be better than going to war over a Chinese province. It would be better than our attempting to right all wrongs in all parts of the world by force of our own protest or our own might.

Any old excuse seems to be good enough to supply fuel for the insensate fury of the extreme opponents of the League. The Shantung attack is about the worst. Whatever force there is in their arguments supports the League of Nations which offers peaceful and reasonable means of wiping out this remnant of the rule of greed and force and of preventing any repetition of its kind.

BISHOP SAYS WOMEN ARE LOSERS IN DIVORCE COURTS.

St. Louis, Mo., July 25.—"These are days when woman will have some voice in determining the permanency of the divorce courts and let us hope she will realize the divorce court is her enemy," declared Archbishop Glennon, of St. Louis, in a sermon here.

"There are few women who appear to profit by the divorce court, but they sacrifice moral duty to a fascinating experiment. She appears through the papers and the publicity attached thereto to obtain a certain dignity, but the rank and file leave the divorce court homeless and hopeless.

"Divorce, as a system, bears down on womanhood. Woman must be protected by making the marriage law permanent and holy. Man, who is strong, escapes, but woman, who is the weaker, and the children, are the victims."

KNOW THE TROUBLE.

The aim of the thoughtful physician—one who endeavors to find every possible help in the treatment of the sick will be to make sure he KNOWS THE TROUBLE and then use the treatment to oversome it.

A proper and positive diagnosis is the principal thing for a physician to know. He must not groupe in the dark, if he expects to succeed in his effotrs.

Dr. Prettyman the specialist in Chronic and Nervous Diseases, claims that his experience is such that he can find out the exact trouble and knowing that, can tell what can be done.

A Very Low Estimate.

In its advertisement in the county seat papers, setting forth the advantages of Nodaway county, the Maryville Commercial Club published a list containing the number of cars of live stock shipped from each station in the county the past year. Four of the stations were estimated, Burlington Junction, being one of these, and the number of cars from here was given as fifty. This is probably less than a fourth of the real number, as one firm of stock buyers alone has shipped over 100 cars. Add the other buyers' shipments, and the private shipments to this and the total will be far in excess of that number. We hope to have the exact figures next week.—Burlington Junction Post.

If your appetite is poor and your stomach and bowels are out of order the remedy you need is Prickly Ash Bitters. It cleanses the system of bilious impuirties, sharpness the appetite and makes a man feel fine. Price $1.25 per bottle.—Maryville Drug Co., Special Agents.—Adv.

Jefferson Township to Start Drive for a Lasting Monument.

According to this week's Conception Junction Courier, Jefferson township will start soon a drive for a Memorial Monument to be erected to the men of that township who made the supreme sacrifice in the war. A mass meeting of the citizens of that township will be held at the Costello hall in the Junction Sunday, July 27, at 4 o'clock. Roy Fitzsimmons is chairman of the committee in charge of the drive.

He is finishing another large picture for Caldwell's, has a large one to paint of Bertram, the Angus they sold recently for a record price, and he is also making several paintings for Nebraska stockmen. He is trying to finish in time to go to his home in Washington by fall, and expects to go from there to South America.—Burlington Junction Post.

CAMPAIGN TO RAISE $65,000,000 FOR GERMANS

St. Louis, July 25.—In conjunction with a nationwide campaign to raise $65,000,000 for the relief of German war sufferers, St. Louis Americans of German ancestry, through the St. Louis War Relief Bazaar Association, are planning to raise a large amount of money. No limit has been set.

Next Monday evening a meeting will be held at the Liederkranz Club, at which the members of the various committees of the organization and smaller associations of the city will be present.

A plan will be launched to collect large sums from wealthy Germans of the city and this campaign will be concluded before efforts are made to obtain smaller subscriptions.

Requests will be made for the smaller German societies of the city to handle collection of smaller sums to be turned into J. Toensfeldt of the Third National Bank, who has been chosen as treasurer of the campaign organization.

Approval of the State Deparment is said to have been obtained through Richard Bartholdt, former Missouri congressman.

The Ladies' Auxiliary of the organization, of which Mrs. Adolphus Busch is honorary president, will have a prominent part in the collection of the money.

Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood.

Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh with S. S. S. during warm weather.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the root of the trouble. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Address Swift Specific Co., Dept. 53, Atlanta, Ga.

How Lydia E. Pinkham's Vegetable Compound Relieves the Ailments of Change of Life.

Are You Retreading or Wasting Your Tires?

When your tires are worn until the fabric shows through on the tread, you must either retread or waste such tires.

The fabric in a tire is for holding air pressure only, and when stripped of its protection of tread rubber it will wear only a few miles and in these few miles the fabric, which represents more than half the cost of the tire is ruined.

If retreaded in time, tread worn tires can be made practically as good as new—and at one-half the price of new tires.

We use the same materials in retreading and rebuilding that you get in the best new tires.

We can tell upon examination whether your tire is suitable for retreading or rebuilding.

We will not repair any tire unless it will give more in service than the cost of the repair.

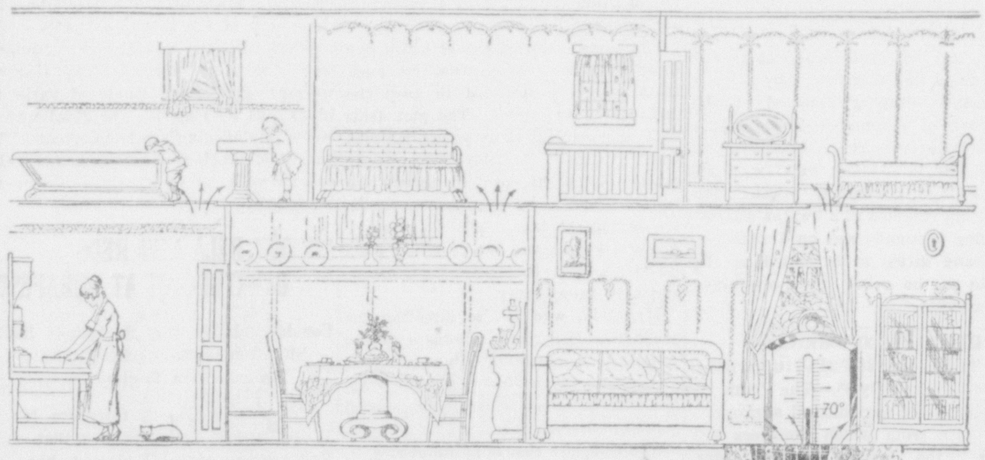
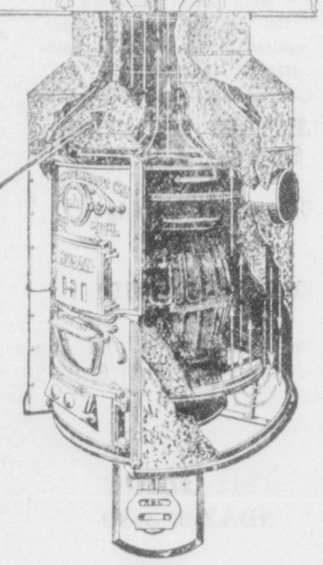
Healthful Heat *from a* PIPELESS FURNACE



YOUR HOME is just as comfortable as your heating system is efficient. Cold and stuffy rooms, or rooms filled with comfortable, healthful heat of the proper humidity—which?

The Homer—the original patented pipeless furnace—answers the problem—sufficient moist warm air and proper ventilation. Simple in construction and simple in operation, the Homer warms and purifies all the air in the house with the least amount of trouble.

The Homer heats so satisfactorily because it works with nature in distributing the warm air to every nook and corner. There are no dust-collecting and heat-absorbing pipes.



Thermo-Seal inner lining

HOMER

ORIGINAL PATENTED PIPELESS FURNACE

with the **Thermo-Seal** inner lining

Whenever there is a fire in the Homer there is a circulation of pure, warm air in the house. The Thermo-Seal inner lining sees to that. The dead air in the house, heavier than the warm air, returns to the furnace, where it is heated, sterilized and moistened. Then it goes direct to the rooms you want warm and cozy.

The Homer is the only furnace with the Thermo-Seal inner lining—the special asbestos lining protected by two heavy sheets of galvanized steel. It keeps the heat from radiating into the cold air passage. It means perfect circulation.

The Homer does all its work through one combination register. And because it is so simple it costs less to install and operate than any other type of furnace.

It takes only a few hours to set up a Homer in any house, old or new, without tearing out the walls or making a muss.

Ask for "Their Own Words"—a booklet written by Homer owners. Let them tell you what the Homer is doing for them. "Healthful Heat" explains the Homer, the Thermo-Seal inner lining and the Stroker iron in detail. There are copies of these books for you at the dealer's.

You can get a Thermo-Seal inner lining only on a Homer

Predict Grave Situation in Germany When Terms Are Enforced

By FLOYD MacGRIFF.
I. N. S. Staff Correspondent.

London (by mail).—Now that the Germans have accepted the terms of peace, the real test as to whether those terms will be fulfilled to the letter will come not next week or next month, but at the end of two or more years' time. Then there may be, in the language of the street, "something doin'."

That is a belief and a fear that is entertained in responsible quarters, though obviously no official desires to be quoted.

The situation in brief, which is counted upon by German radicals and others to loosen the Allied shackles and destroy the peace edifice, is this: In a couple of years' time, or at the most, say five years, let the truly elected representatives of German labor rise up and say: "Recind such and such a peace term. It is against the interests of world democracy and peace. If it is not withdrawn we shall fight."

And the Allies would then be confronted with this very difficult problem: "Can we enforce such and such a term? Will the people back us up? Will they fight?"

There is every reason for believing that the common working and fighting men of all the Allied countries would refuse to enter again into another great war. The memory of the recent conflict is to still too vivid and its sorrows and losses too great. They would, no doubt, fight for their own defense, but to fight to enforce some peace term which they might but vaguely understand would be something else. The fact that unless such a term were enforced might draw heavier taxes upon Allied workingmen, owing to the German delinquency, would have little argumentative weight, especially among those soldiers who gave four years of their lifetime and earning power to the recent conflict.

This situation is one the Germans are counting on very strongly today. They are even open about proclaiming it. The Manchester Guardian sums it up thus:

"The bulk of the German socialists believe that all over the world the labor parties are enormously increasing in strength and will soon have political control. These parties will see the workmen in Germany working under different conditions from themselves and very soon the terms will be modified in all directions."

As the London Times points out, the Independent German Socialists and Communists frequently advocated the signing of the peace in the hope that the "world revolution" would come quickly.

"We must be done with the state of war, they say, and it is idle to dispute over terms dictated to us by a triumphant capitalism," says the Times. "They are no worse, the Germans say, than the terms which triumphant German capitalism would have inflicted. Sign the Peace, and let us get on with the Internationale; the united workers of the world will make short work of the Terms as soon as they have come to power!"

Clearly, heavy pressure could again be put on Germany at any time simply through the blockade. But, with insidious propaganda for "world socialism," which the Germans already are preparing to unleash, will the Allies, or even the League of Nations, be of sufficient power and influence to keep order in their own hands and at the same time make Germany "toe the mark" or tote in the marks?

Economy in Farm Buildings.

Cheapness of construction, if it affects the strength or durability, is poor economy in farm buildings. Strength and durability are essentials. There is some danger of making buildings too expensive. They should be in keeping with the value of the land and the stock and grain which they are to shelter. City bred farmers are apt to spend too much money on farm buildings. Often, a misguided wealthy man will invest a large amount in a farm building, hoping that it will be a model for his neighbors. Buildings should, like all farm investments, pay interest on the investment. There is more danger, however, that the buildings will be too cheap than too expensive. The present high cost of building materials will be responsible for that.

Missouri farmers are demanding better buildings. Due to increased prices, better care is being taken of all farm products. Live stock must have better shelter. Hay and grain must be carefully protected from the weather. Better living conditions for the family are necessary. In response to this demand for better buildings, the agricultural engineering department of the University of Missouri College of Agriculture has prepared a list of building plans which has been issued as Cicular 69. The plans listed do not cover the entire field of farm buildings, but new plans are constantly being added and the department may be able to supply just what you need.

If you can't work well in hot weather take Prickly Ash Bitters, it purifies the stomach, liver and bowels and fortifies the body to resist the depressing influence of summer heat. It is fine for working men. Price $1.25 per bottle.—Maryville Drugs Co., Special Agents.—Adv.

Sugar for Home Use.

Washington.—Twenty-one million pounds of white sugar, representing the War Department's entire surplus of this commodity, have been ordered sold at a minimum price fixed by the Sugar Equalization Board. The sale at these figures will insure the Government full recovery of the original cost of the sugar. The War Department has stipulated that none of the sugar shall be sold for export, although the prices offered in the foreign market were higher. It was decided to keep the stocks in this country for domestic consumption.

DOCTORS ADVISED HIM TO TAKE IT

A. F. Roberts, Successful Cattle Dealer Gains 16 Pounds In 60 Days Taking Tanlac.

"One of the best doctors in Colorado advised me to take Tanlac, and it has not only overcome my troubles but I have gained sixteen pounds since I began taking it sixty days ago." said A. F. Roberts, who lives at Rocky Ford, Alberta, Canada, a few days ago.

Mr. Roberts is one of the largest cattle dealers in his section of the country, and before moving to Canada a short time ago, he had spent most of his life in Colorado, U. S. A.

"I can now understand why Tanlac enjoys such wide popularity both in Canada and the United States," continued Mr. Roberts, "and since it has done me so much good, I know that it is a very dependable medicine and deserves all the praise that is being given it. For the past two years I have suffered from stomach trouble, and when I commenced taking this Tanlac, it was almost impossible for me to retain anything I ate, I was very nervous and never got a good nights sleep and finally got so weak and rundown that I was hardly able to get about, I often had dizzy spells, and was bothered a great deal with constipation.

"My physician certainly knew what he was doing when he prescribed Tanlac for me, for it has done the work for me, as I am as healthly and strong now as I ever was in my life. In fact it has done much more for me than I expected it would do. I have a fine appetite and everything I eat agrees with me perfectly, and I never have the slightest sign of stomach trouble of any kind. I am no longer bothered with constipation, and never have those dizzy spells any more. I have regained all my strength, too, and that nervousness has left me, and I sleep like a log every night. In fact, I am simply enjoying perfect health again, and I give Tanlac credit for it all."

"Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, in Arkoe by Rufus R. Smith, and in Hopkins by Hopkins Drug Co."

Prohibition Results?

Indianapolis, Ind.—A full-fledged moonshine still and a quantity of freshly-distilled "mountain dew" were confiscated by the police in a raid on the home of Edgar Sherwood. Sherwood "wasn't in" when the morals squad allied, but the officers carted away a tin condenser, a warm tube, a tub for mash, a large wooden paddle and gas connections.

Peculiar aroma arising from the home-made stagger led the neighbors to sniff the air and then to call the police.

HUSBAND SUES PHYSICIAN, ALLEGING HE STOLE WIFE.

St. Louis, July 25.—Edward Boyer, of East St. Louis, through his attorneys, has filed suit in United States District court asking $100,000 damages from Dr. F. S. Thurman, a physician of Potosi, Mo., charging alienation of his wife's affection. Boyer askes $50,000 actual and $50,000 punitive damages.

In the suit Boyer states that Dr. Thurman has for many years been a practicing physician of Potosi and has served as physician for the Boyer family. He declares that Dr. Thurman had his confidence and trust and estranged his wife from him.

According to Boyer, Dr. Thurman "applied every art and device" to estrange Mrs. Boyer from him, wrote her ardent love letters and through persistent efforts "succeeded in his purposes."
